Report on Pulse demonstration programme in Rice Fallow areas

Sl.No	Name of the crop	Previous Crop	Village	G.P.	Block
1	Chick Pea	Paddy	Arsala	Arsala	Jhumupura
2	Chick Pea	Paddy	Balibandh	Balibandh	Jhmpura
3	Chick Pea	Paddy	Purunia	Kantiapada	Patna
4	Chick Pea	Paddy	Gandabarei	NuaDhanurjaypur	Jhumpura
5	Chick Pea	Paddy	Kalimati	Junga	Harichandanpur

- Green gram & Blackgram are cultivated mostly in Anandpur sub-division. It is difficult for us for regular monitoring as it is about 100 kms away from the KVK campus. Hence, Chickpea is the preferred crop for pulse demonstration in Rice-Fallow areas during Rabi season.
